

### **Updates on Article three of the CCM:**

Excellences, Distinguished Heads of Delegations, Ladies and Gentlemen:

In relation to the Article three of the convention, Afghanistan Ministry of Defense has formally announced that it has already destroyed all its stockpiles of cluster munitions. Moreover, since 2008, there is not any report or indication on the use of cluster munitions in the territory of Afghanistan neither by national or international assistance forces.

At the end I would like to reiterate that the GIROA commit itself to fulfilling its obligations in relation to the Convention on Cluster Muintions and other international conventions to which Afghanistan is a state party.

Thank you
